

MN-65-1 T-Jig saw blades for wood and plastic

Jig saw blades made of HCS steel with ground teeth

Features & benefits

- Made of high quality HCS steel, which increases service life of blades
- Milled and alternately distributed teeth provide the clean and precise cutting of wood
- Wide range enables you to make straight and curved cuts, fast and precise
- T-type handle, which is the most common handle that fits most jig saws available on the market

Applications

- For cutting wood and wood-based materials such as plywood, chipboards, kitchen worktops
- Intended for use with jig saws

Equipment

- 3 blades per package

Users

- Carpenters
- Joiners
- Fitters
- DIY enthusiasts
