

MN-72-5 Blades for skimming spatula 0.3 mm

Perfect for finishing walls and ceilings.

Features & benefits

- Bent and curved blade ends 0.3 mm in thickness prevent wall surface scratching.
- Simple and convenient blade replacement system for extended service life.
- Hardened stainless steel blade – resilient, wear resistant, and perfectly adaptable to the angle at which the spatula is set against the surface being skimmed.
- 5 available widths – 250, 400, 600, 800, 1000 mm – perfect for smoothing surfaces of different sizes when skimming, plastering, or working on facades.

Applications

- Designed for plastering walls and ceilings.

Users

- Gypsum plasterers
- Painters
- DIY enthusiasts
- Tilers
- Bricklayers
