

# SINGLE NAILS WITH WASHER fi 15mm FOR CONCRETE AND STEEL PATRON

Single nails for concrete and steel, galvanized

## Product information

### Features and benefits

- Ballistic point increases performance into the base material. This special design is responsible for providing best load bearing values for this type of fixing
- Compatible with leading manufactures tools currently on the market
- Full round head provides a secure fixing and high pull through value

### Applications

- Fixing various membrane types to concrete and steel

### Base materials

- Concrete
- Concrete C20/25-C50/60

## Product commercial data
