

MN-64-43 Axes, fibreglass with wedge

Axes with forged steel wedge with ergonomic handle, fibreglass type

Features & benefits

- Working part is made of forged steel and it is inductively hardened, which increases resistance to flattening
- Ergonomic handle made of special fibre, which provides lifetime durability, absorbs vibrations and increases work comfort
- Special shape of the wedge in the back of the axe allows you to split large elements
- Blade protection prevents damaging during transport

Applications

- Intended for chopping and splitting wood

Users

- Gardeners
- DIY enthusiasts
- Roofers
- Joiners
