

MN-63-214 Joint shears for sheet metal - straight cut, up to 250 mm, CrMo

Joint shears 250 mm, straight cut, jaws made of CrMo steel

Features & benefits

- Forged CrMo steel jaws provide an extended service life
- Articulated structure allow you to cut more easily (requires less force)
- Jaw hardness 56-62 HRC allows you to cut sheet metal, up to 1.8 mm thick
- Automatic jaw lock secures the shears during transport and allows you to open them with one hand
- Two-component handle improves handle ergonomics and work comfort
- Straight jaws allow you to cut in a straight line ideally

Applications

- Intended for cutting sheet metal, steel profiles and drywall profiles

Users

- Gypsum plasterers
- Roofers
- Tinmen
- Mechanics
- Fitters
