

# PROTECTIVE KNEE PADS

## KNEE PROTECTION AGAINST BRUISES AND ABRASIONS

MN-06-306

- Additional protective straps
- Perfect for all kinds of kneeling work
- Easy fastening thanks to adjustable straps
- Adaptable to nearly any leg size
- Optimised for freedom of movement and high functionality
- Very comfortable to wear
- EN 14404 standard compliant

### ▶ FEATURES AND BENEFITS

**PVC SHELL** to protect the knees and provide insulation against the effects of cold and moisture.

**ADJUSTABLE RUBBER STRAPS** with Velcro fastening ensure a firm hold on the knees and adapt to nearly any leg size. They are easy and quick to put on and take off.

**THE ADDITIONAL PROTECTIVE STRAP** provides protection against sand and debris being caught between the pad and the knee, and secures thighs from bruising.

**EVA FOAM AND GEL LINING** on the inside provide pad cushioning against knee pressure, even during prolonged kneeling work.

**VERSATILITY** of the knee pads makes them suitable for a wide range of jobs, including floor laying, joinery, gardening, welding, etc.

### ▶ APPLICATIONS

- Perfect for all kinds of kneeling work

### ▶ USERS

- Tilers
- Installers
- DIYers
- Carpenters
- Electricians
- Pavers
