

RT-HSSD

DOUBLE ENDED HSS DRILL BITS

Double ended HSS ground bits for drilling holes for rivets in steel plates

FEATURES AND BENEFITS

Double-sided sharpening of the tips allow you to work with one drill bit for a longer time.

Point angle of 135° enables you to drill in hard steel.

Drill bits made of high-quality HSS steel, which ensures high durability.

Ground spiral enables you to drill precisely.

Double-sided geometry of the point (SPLIT POINT) ensures ideal centring and reduces pressure while drilling.

SUBSTRATES

Metal sheet & profiles

Structural steel

Aluminium

Non-ferrous metals

APPLICATIONS

Steel structures
