

MN-78-13 Segmented diamond blades

Segmented diamond blades for heavy work in hard materials

Features & benefits

- Unique shape and high quality of diamond segments allow you to cut hard construction materials quickly
- Side segments protect the blade from jamming in the material and enable circle cutting
- Expansion slots enable the dry run without the need for water cooling
- Inner hole 22.23 mm allows them to be used with most angle grinders on the market

Applications

- For cutting paving stones, bricks, blocks and concrete
- Intended for using with angle grinders

Users

- Pavers
- Bricklayers
- Masons
- Roofers
- Fitters
