

RT-CSBW Circular saw blades for wood cutting

Circular saw blades dedicated to cut wood and wood-based materials

Product information

Features and benefits

- Special cemented carbide provides long life
- GS geometry enables effective cutting through wood grain and gives a good surface quality of machined cut materials
- Precision ground teeth provide good quality, but also cutting speed
- Made from high quality alloy steel, polished disc, provides high rigidity and thus the quality of the cut
- Expansion joints to prevent deformation of the disc under the influence of temperature

Applications

- For cutting of wood and wood-based materials

Base materials

- Wood
- Timber

Set includes

- Reducing ring
