

MN-78-2 Diamond blades with continuous rim for stationary tile cutters

Diamond blades for cutting gres tiles and ceramics with an increased height of diamond tip

Features & benefits

- Full shape and high quality of the diamond blade flange allows you to cut glazed tiles and other ceramic materials precisely
- Increased height of the diamond coating increases the service life of the entire disc
- Inner hole 22.23 mm ensures that they can be used with most benchtop cut-off machines available on the market
- Reducing ring 25.4/22.23 mm ensures that they can be used in hand-held angle grinders

Applications

- For cutting terracotta tiles, glazed tiles and ceramics
- Intended for use with benchtop cut-off machines

Users

- Tilers
- Fitters
- Masons
- DIY enthusiasts
