

# RawlHAMMER

ROTARY HAMMER  
SDS plus 18 V Li-Ion  
R-PRH18-24-XL2

The efficient hammer mechanism allows drilling holes in all building materials.

RawlBattery's 18 V battery is interchangeable with Rawlplug 18 V devices.

## FEATURES AND BENEFITS

Powerful brushless motor ensures high efficiency of the mechanism and increases the life time of the tool

3 functions - drilling / hammer drilling / chiseling makes the rotary hammer an extremely versatile power tool

Ergonomic mode selector allows convenient and quick switching between power tool functions

Compact design and lightweight construction reduces fatigue during long-term use

Electronic protection stop system engages during jamming to protect the user and the power tool

Two Li-Ion batteries with 5.0 Ah capacity and a 50-minute fast charger are included with the set to guarantee uninterrupted work

The SDS plus tool shank ensures full compatibility with a wide range of accessories available on the market and enables effective transfer of impact energy

## PODŁOŻA

Concrete

Reinforced concrete

Brick

Stone

Steel

Timber

The R-PRH18-24-XL2 hammer drill is characterized by a refined and durable construction. Efficient hammer mechanism allows for efficient drilling of holes in concrete and reinforced concrete up to 24 mm in diameter. The function of shoring allow for using a power tool when chipping ceramic tiles and removing the old plaster. Two batteries and a 50-minute charger included in the set guarantee operation without unnecessary downtime.

## APPLICATIONS

Drilling holes in concrete up to Ø 24 mm

Drilling holes in wood up to Ø 26 mm

Drilling holes in metal up to Ø 13 mm

Façades and roofs thermal insulations

Sheet metal drilling  
up to Ø10 mm x 2 mm thick

Wooden constructions: drilling in wood  
or chipboard (up to Ø 30 mm)
