

MN-37-20 Bar clamps

Traditional bar clamps with a wooden handle and plastic pads

Features & benefits

- Robust clamp design (wide steel guide) is resistant to twisting and ideal for transfer of high forces
- Ribbed construction of steel guide prevents spontaneous slipping of clamping arms
- Traditional wooden handle, additionally coated with paint, improves comfort of work
- Plastic pads improve stability, prevent the workpiece from slipping and protect it from damage

Applications

- Designed for all kinds of carpentry, locksmith and assembly works

Users

- Carpenters
- Masons
- DIY enthusiasts
