

MN-78-12 Diamond blade set

Perfectly matched set of diamond blades 115 mm for wet and dry run

Features & benefits

- Shape of diamond segments allows you to cut bricks, ceramic blocks and other lightweight construction materials
- Holes cooling the discs enable the dry run without the need for water cooling
- Full shape of the diamond wheel flange allows you to cut glazed tiles and other ceramic materials
- Inner hole 22.23 mm allows them to be used with most angle grinders on the market

Applications

- Intended for using with angle grinders
- For cutting stones, terracotta tiles, lightweight concrete, bricks and concrete blocks
