

RT-IS-EX175-1/2

IMPACT EXTENSION
1/2" / 175 mm

Durable 1/2" / 175mm impact extension adapter matching the RT-IS 1/2" bits and other 1/2" socket accessories

FEATURES AND BENEFITS

With 175 mm of length, the tool can reach areas difficult to access when the bit itself is not long enough

Made of high-quality 42CrMo4 steel for improved mechanical strength and durability

1/2" spring loaded ball-type shank to ensure firm holding of bits and other 1/2" socket accessories

1/2" socket matching most impact wrenches and other tools with the 1/2" chuck available on the market

Perfect for driving the R-LX screws of large sizes thanks to its high mechanical strength

BASE MATERIALS

 Concrete

 Metal

 Wood

APPLICATIONS

Screwing/unscrewing fasteners in places difficult to reach

Driving the R-LX screws in places difficult to reach

With the 1/2" / 175mm impact extension adapter, you can achieve excellent results using it for various applications in places difficult to reach. Choosing the 1/2" / 175mm impact extension adapter means a broader spectrum of options in diverse jobs and optimised working time.
