

SP-KSC single pins

Single nails for concrete and steel, galvanized

Product information

Features and benefits

- Ballistic point increases performance into the base material. This special design is responsible for providing best load bearing values for this type of fixing
- Compatible with leading manufactures tools currently on the market
- Full round head provides a secure fixing and high pull through value

Applications

- Electrical cable and pipe clamps
- Cable conduits and cable trays
- Drylining track
- Handrails
- Brick ties

Base materials

- Concrete
- Concrete C20/25-C50/60
