

MN-94-208 Bags for vacuum cleaners UNIVERSAL

Set of 55 non-woven bags for household vacuum cleaners

Features & benefits

- Strong seal made using ultrasonic sealing increases the bag's service life
- Separate layers with different structures greatly increase the bag's efficiency
- 3 layers of non-woven fabrics increase the bag's strength and reduce dust emissions from the vacuum cleaner
- Carefully selected mounting rings ensure that the bags are securely held in the vacuum cleaner
- Rubber flange gasket of the mounting ring ensures that the bag placed within the vacuum cleaner is tight
- High quality microfibres increase service life and tear resistance

Applications

- For vacuuming small metal parts (e.g. old nails) and iron and non-ferrous metal filings
- For vacuuming small construction waste (e.g. debris, chippings)
- For vacuuming broken glass and ceramics
