

RT-SDSG

GRANITE DRILL BITS SDS PLUS

Drill bits SDS plus for drilling holes in granite slabs

FEATURES AND BENEFITS

Aggressive grooves allow fast extraction of material and increase the drilling speed.

Extremely high quality, cylindricity and axial alignment of drilled holes, confirmed by international SicherSafe certificate.

Very deep seating of carbide plate significantly improves connection with the drill core, which affects quality.

Steel with specification 34CrNiMo6 provides high strength and durability.

The special conical shape of the tip allows drilling in hard granite slabs.

Heat treated, which increases the hardness of the steel to 52 HRC for optimal resistance during operation.

SUBSTRATES

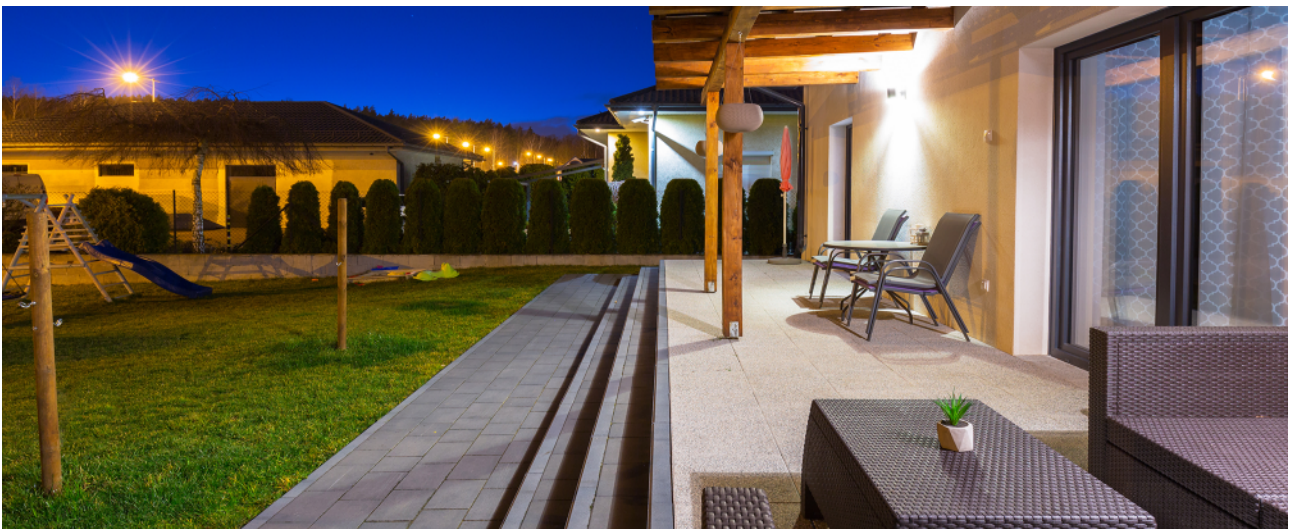

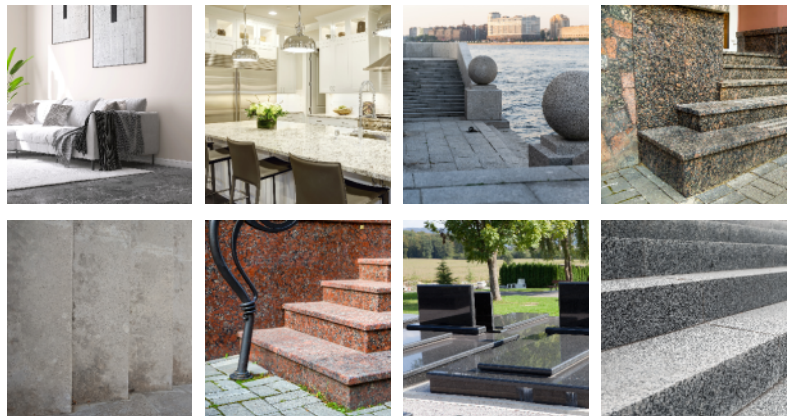

High-density natural stone

APPLICATIONS

Floors and terraces
