

## MN-73-107 Float to grouting, 2 components handle 250X100 mm

Float to grouting, with the elastic rubber foundation, cut at an angle of 45 degrees allows for perfect distribution of the fugue between the tiles

### Features & benefits

- Made of hardened material, which assures the stiffness of the product during work
- The ergonomic, two-component, contoured handle increases the comfort of work
- Elastic rubber foam, which has been cut at a 45-degree angle, allows for the ideal distribution of the grout between tiles
- Rubber thickness - 10 mm - assures an even distribution of mortars

### Applications

- Designed for grouting glaze and terracotta

### Users

- Tilers
- Masons
- DIY enthusiasts
