

MN-71-2 Floating rules with handles and vials profi

Aluminum floating rules with reinforced profile 90 mm, vertical and horizontal vial, as well as two handles

Features & benefits

- Aluminum profile guarantees corrosion resistance
- Two accurate vertical and horizontal vials with an accuracy of 1 mm/m provide measurement accuracy
- Diced profile assures ideal straightness along the entire length of the tool
- Two in-built handles enhance work comfort
- Internal reinforcement of the entire floating rule assures the stiffness of the rule

Applications

- Professional floating rule with grips used for levelling and evening mortars on large surfaces

Users

- DIY enthusiasts
- Bricklayers
- Gypsum plasterers
- Tilers
- Masons
