

MN-68-91 Flap discs for stainless steel cutting

Flat flap discs type 41, with thin gauge, for fast cutting stainless steel

Features & benefits

- High-quality aluminium oxide provides long service life of the product
- Thin gauge of the disc enables faster and more precise cutting and small kerf
- Bakelite bond, reinforced with a mesh, increases disc strength at high revolutions
- Abrasive grain size 46 assures high quality and precision of cutting
- Disc hardness T (very hard) increases durability and cutting speed of stainless steel

Applications

- For quick and precise cutting stainless steel and other low-alloy steel
- Intended for using with angle grinders

Users

- Locksmiths
- Tinmen
- Welders
- Mechanics
- Plumbers

Warnings

- Always use eye protection
- Always use gloves
- Always use ear protection
- Always use dust mask
- Always use safety workwear
- Maximum grinder operating speed is 80m/s
