

MN-63-040 Steel knife for trapezoid blades

Trapezoid blade knife with gradual regulation of blade length

Features & benefits

- Aluminum body enhances durability and work comfort
- Two-component handle allows you to work under big pressure, which enables you to cut thick materials
- Body with the container enables you to store spare blades
- Screw lock allows a quick replacement of the blade
- Retractable blade increases safety and facilitates transport

Applications

- Knife is intended for cutting thick materials e.g. drywall, leather, rubber, etc.

Users

- DIY enthusiasts
- Gypsum plasterers
- Fitters
- Varnishers
- Painters
