

MN-71-2 Floating rules with handles and vials

Anodised aluminum floating rules with 100 mm profile and vertical and horizontal vial, as well as two handles

Features & benefits

- Aluminum profile guarantees corrosion resistance
- Two accurate vertical and horizontal vials with an accuracy of 1 mm/m provide measurement accuracy
- Two in-built handles enhance work comfort

Applications

- Floating rule with grips used for leveling and evening mortars on large surfaces

Users

- Road workers
- DIY enthusiasts
- Bricklayers
- Tilers
- Gypsum plasterers
