

MN-78-30 Turbo Jupiter diamond blades

Turbo diamond blades for cutting ceramic blocks and roof tiles

Features & benefits

- Shape of the Turbo-type segment ensures stable and precise cutting
- Distribution of diamond in the Turbo-type flanges allows you to cut ceramic block, roof tiles and other hard construction materials
- Holes cooling the discs enable the dry run without the need for water cooling
- Inner hole 22.23 mm allows them to be used with most angle grinders on the market

Applications

- For cutting roof tiles, concrete blocks, concrete, stone and bricks
- Intended for using with angle grinders

Users

- DIY enthusiasts
- Bricklayers
- Masons
- Roofers
- Fitters
