

RT-IMP Masonry drill bits Impactor

High-quality masonry drill bits consuming 20% less battery power while drilling hammer Cordless drill

Certificate

Product information

Features and benefits

- Specially sharpened carbide plate allows for quick and cylindrical drilling
- Very deep seating of carbide plate significantly improves connection with the drill core, which affects quality
- High-quality carbide plate increases the quality of drilled holes and reduces by 20% battery power while drilling hammer Cordless drill
- Heat treated, which increases the hardness of the steel to 52 HRC for optimal resistance during operation
- Extremely high quality, cylindricity and axial alignment of drilled holes, confirmed by international SicherSafe certificate

Applications

- Drilling in concrete, solid and hollow brick
- Suitable for operation with impact drill and cordless drill

Base materials

- Concrete
- Solid Brick
- Lightweight Concrete Block

Corresponding products

- 4ALL Universal Plug
- 4ALL Universal Plug with Screw
- UNO® UNIVERSAL PLUG
- UNO® UNIVERSAL PLUG WITH SCREW
