

MN-78-21 Diamond blades with continuous rim for angle grinders

Diamond blades for cutting gres tiles and ceramics with an increased height of diamond tip

Features & benefits

- Full shape and high quality of the diamond blade flange allows you to cut glazed tiles and other ceramic materials precisely
- Increased height of the diamond coating increases the service life of the entire disc
- Inner hole 22.23 mm allows them to be used with most angle grinders on the market

Applications

- For cutting terracotta tiles, regular tiles, ceramics and roof tiles
- Intended for using with angle grinders

Users

- Tilers
- Roofers
- Fitters
- Masons
- DIY enthusiasts
