

R-GP5 Fuel Cell for use with R-RAWL-SC40II

Fuel cell for use in R-RAWL-SC40II gas powered nailer

Product information

Features and benefits

- Clean Propane & Butane mixture reduces carbon residue
- High quality propellant for increased performance
- Contains a fully synthetic oil for lubricating the tool
- Compatible with leading manufactures tools
- The temperature range depends on the type of gas - details in the technical table

Applications

- Powering gas powered steel and concrete nailers

Product commercial data

| Index | Fuel type | Lubrication | Volume | WEIGHT | Operating temperatures | Efficiency | Box weight | Outer weight | EAN |
|---------|------------------|-------------|--------|--------|------------------------|------------|------------|--------------|---------------|
| | | | [mL] | | [°C] | [shots] | kg | kg | |
| R-GP5 | Propane & Butane | Yes | 55 | 30 | +5 do + 35 | min. 500 | 0.75 | 7.50 | 5906675510118 |
| R-GP5-S | Propane & Butane | Yes | 55 | 30 | +5 do + 55 | min. 500 | 0.75 | 7.50 | 5906675510125 |
| R-GP5-W | Propane & Butane | Yes | 55 | 30 | -8 do + 25 | min. 500 | 0.75 | 7.50 | 5906675510101 |
