

MN-61-801 Unibits for metal

Unibits for metal, 4-12 mm or 5-35 mm

Features & benefits

- High-quality M2 steel improves service life and resistance to high temperature while drilling
- Special titanium nitride (TiN) coating significantly increases the hardness of the drill bit and abrasion resistance
- Degrees and diameters of the drill bits are perfectly adapted to the most commonly increased hole diameters

Applications

- For drilling in sheet steel, aluminum and stainless steel up to a thickness of 3mm
- Intended for using with a drill and cordless drill-driver

Users

- Locksmiths
- Tinmen
- Fitters
- Mechanics
- DIY enthusiasts
