

MN-97-92 WELDING rods

Welding rod for welding structural steel 5 kg

Features & benefits

- Construction of the welding rod allows you to weld in all positions, especially in the vertical position from the top down
- Welding rod with rutile-cellulose coating enables you to weld structural steels
- Various diameters also enable you to weld thin wall structures
- It is suitable for welding with the use of all welding equipment available on the market

Applications

- Welding rod for welding all structural steels, including those with thin walls and cross sections

Equipment

- Electrodes, 5 kg in a single package

Users

- DIY enthusiasts
- Welders
- Fitters
- Mechanics
- Road workers

Corresponding products

- MN-06-130 Welding shield
- MN-06-132 Welding helmet
