

MN-73-3 Stainless steel serrated floats

Stainless steel serrated floats with a two-component handle

Features & benefits

- Two-component handle provides a strong and ergonomic grip
- Sheet thickness for good flexibility
- Ergonomic handle shape ideally fits to the shape of the hand
- The stainless steel table top provides high abrasion resistance and protects against corrosion
- The neck made of tarmamid provides high mechanical strength, stiffness and abrasion resistance.

Applications

- Intended for applying and spreading adhesives

Users

- Tilers
- Bricklayers
- Painters
- Masons
- DIY enthusiasts
