

MN-20-180 Crimping pliers for modular connectors 8P 6P 4P 195mm TPR SK5

Precision specialist pliers

Features & benefits

- 3 tools in one - cutting, crimping and stripping
- The 3 interchangeable dies for 4P, 6P and 8P terminals allow you to earn telephone and network terminals
- The contoured TPR handle provides a comfortable grip and work comfort
- The handle lock prevents the jaws from opening by itself while protecting the cutting and stripping blades from damage
- The cutting knives made of SK5 steel, hardened to the level of HRC 42-48, guarantee durability and wear resistance
- The blackened surface of the body provides additional protection against corrosion
- Stripping and cutting wires thanks to dedicated zones for processing cat.5, 5e and 6 cables and thin wires

Applications

- Application during electrical installation works
- For crimping telephone terminals on wires

Users

- Electricians
- Fitters
- Mechanics
- DIY enthusiasts
