

## MN-15-30 25 mm PH bits

Phillips bits made of high-grade S2 steel with the ACR system

### Features & benefits

- High quality S2 steel increases service life and allows you to use a greater number of screws and fasteners
- 55-58 HRC steel hardness increases resistance to torsional stresses while screwing and extends the service life of the product
- ACR system and the corrugated head of the bit facilitate handling of the screw during work

### Applications

- Intended for screwing the screws into wood and drywalls, as well as for other fastenings with the Philips socket
- Intended for use with a cordless drill and driver

### Equipment

- 20 bits in one packaging

### Users

- Roofers
- Gypsum plasterers
- Electricians
- Fitters
- DIY enthusiasts
