

# RT-TD Drill bits Roof System

Special tapered drill bits for flat roof fixings

## Certificate

## Product information

### Features and benefits

- Centre point for quick commencement of drilling without the drill slipping
- 160° angle tip allows for quick drilling in concrete
- Very deep seating of carbide plate significantly improves connection with the drill core, which affects quality
- Aggressive grooves allow fast extraction of material and increase the drilling speed
- The conical connection between drill and an SDS plus adapter allows the transfer of 100% of impact

### Applications

- Drilling holes through insulation for facade and roofing mounting
- Suitable for operation with the RoofSystem adapter

### Base materials

- Concrete
- Natural Stone (after site testing)
- Solid Brick

### Corresponding products

- RT-ADAP Expanders SDS plus Roof System
- R-GOK Telescopic sleeve with round plate
- GOK, GOK-N + WBT Roofing fixing system
