

MN-93-215 Random orbit sander 125 mm

Random orbit sander 125 mm 430 W for sanding and polishing various types of surfaces

Certificates (icon):

Features & benefits

- Universal 430 W tool for most sanding works
- Combination of oscillating and rotational motions of the 125 mm pad makes the random orbit sander faster than an orbital finishing sander
- After changing the disc, a random orbit sander can be used for polishing
- Rotational speed adjustment allows the user to set parameters of operation appropriate to the work being performed
- Adjustable additional handle increases comfort of operation
- **Red Plug Service** guarantees quick repair of a broken tool though free courier shipment from and to the customer

Applications

- Intended for grinding (wood and metal) surfaces, e.g.: furniture, doors, elements of a car body
- Intended for polishing (wood and metal) surfaces with the use of appropriate discs, e.g. polishing automotive lacquers, polishing wax coatings on furniture

Equipment

- Dust container
- Sandpaper disc

Users

- DIY enthusiasts
- Carpenters
