

MN-37-26 Strong clamps

Bar clamps with an ergonomic PVC handle

Features & benefits

- Robust clamp design (wide steel guide) made of high class steel is resistant to twisting and ideal for transfer of high forces
- Ribbed construction of steel guide fitted with ratchet mechanism prevents spontaneous falling of clamping arm which improves comfort of work
- Guide has been galvanized, which prevents corrosion and provides esthetic appearance
- Ergonomic grip made of non-slip PVC components allows you to achieve even greater force
- Pads made of specially selected plastic are durable, improve stability, prevent the workpiece from slipping and protect it from damage

Applications

- Ideal for all kinds of carpentry, locksmith and assembly works

Users

- Carpenters
- Masons
- DIY enthusiasts
