

MN-93-220 Drywall sander 225 mm, 1220 W

Drywall sander 1220 W with built-in dust extraction system

Certificates (icon):

Features & benefits

- Hand-held drywall sander greatly facilitates work when sanding walls at the user's work height
- Built-in dust extraction system with adjustable power, along with included bag, guarantees less dust in the room and better work conditions
- Removable front part of the disc guard allows the user to sand near corners and in hard-to-reach places
- Brush around the working disc prevents dust from getting in and reduces damage to the surface being sanded
- Shoulder strap and side handle (mountable in 2 positions) reduce the user's fatigue and improve comfort of operation
- Adjustment of the disc's rotational speed allows the user to set a speed appropriate to the surface being worked on and the work being performed
- On/off switch lock allows the device to be operated for a long time without holding the trigger, increasing comfort and safety of operation
- Hook and loop fastening of discs greatly decreases time needed to replace them
- A 4 m long cable provides large area of operation without the need to move the power source
- Disc powered directly by the motor means increased durability of the tool
- Easily accessible brushes can be replaced by the user
- **Red Plug Service** guarantees quick repair of a broken tool though free courier shipment from and to the customer

Applications

- Intended for sanding large plaster surfaces, e.g. plaster finishes

Equipment

- Sandpaper set (various grades)
- Side handle and shoulder strap
