

MN-94-194 GRAPHITE PARKSIDE vacuum cleaner bags

Features & benefits

- High quality microfibre increases service life and tear resistance
- Strong seal made using ultrasonic sealing increases the bag's service life
- 3 layers of non-woven fabrics increase the bag's strength and reduce dust emissions from the vacuum cleaner
- Carefully selected mounting rings ensure that the bags are securely held in the vacuum cleaner
- Rubber flange gasket of the mounting ring ensures that the bag placed within the vacuum cleaner is tight

Applications

- To be used with GRAPHITE and PARKSIDE vacuum cleaners (detailed list in the additional information)
- For vacuuming small metal parts (e.g. old nails) and iron and non-ferrous metal filings
- For vacuuming small construction waste (e.g. debris, chippings)
- For vacuuming broken glass and ceramics

Users

- Maintenance technicians
- Fitters
- DIY enthusiasts
- Carpenters
- Bricklayers
